

CREATIVITY CORNER

Aquatic Invasive Species

Activity One Research an Invasive Species

Instructions: Gather information on an invasive species of your choice. Ideas for species are quagga mussels, Asian carp, spiny water flea, or water hyacinth. Write a descriptive paragraph and draw a map that explores the origins of your invasive species. The map should include a title, legend and eye-catching colors noting native and introduced habitats for your chosen invasive species. Be sure to include the sources of your information.

Activity Two Write a Poem

Instructions: Using your knowledge on prepositional phrases, write a poem about an invasive species or preventing their spread.

We would love to see your work! Once completed, share your work with us through your teacher.
